Welcoming Remarks

Welcome to our first International Conference on Entrepreneurship, Innovation and Family Business. The event is jointly organized by the University of Tunis Carthage, Audencia Business School, Gulf University for Science & Technology, Università degli Studi di Napoli Federico II, University of Québec at Montréal, Paris School of Business and the University of Ottawa.

From an initial idea to host a small research seminar, it has grown into an international conference with parallel sessions in entrepreneurship, family business and finance. We are truly pleased to have you join us! We hope that you will be impressed with the high quality of the sessions, the speakers, and with the conference overall.

Since the outset, our goal has been to bring together scholars in entrepreneurship, family business and finance, reflecting the close links between these disciplines. Beyond this goal, the conference promotes and profiles innovative research, and above all, fosters networking and collaboration.

We wish to express our thanks to those who have contributed to the conference organization and logistics, especially faculty and staff at University Tunis Carthage (UTC). We also gratefully acknowledge the generous support of UTC who makes this event possible.

If you are visiting Tunis for the first time or for the nth time, do take the opportunity to visit Tunisia's capital.

May the conference provide all of us with food for thought, the opportunity to make or renew friendships and contacts, and the confirmed intention to return in May 2024!
